Nearshore Division Tournament Rules Addendum

Article I. Scope

- (a) For tournaments where Nearshore Division rules will be an option, the current tournament rules will apply with the addition of this addendum and the most current approved Nearshore Division points matrix. In any case that there is a conflict between the current tournament rules and this addendum, this addendum will take precedence. The approved Nearshore Division Tournament Rules shall be the most current version on the ASWSC website. These tournament rules shall not be modified unless approved by the Tournament Committee and the Executive Committee.

Article II. Tournament Format

- (a) Nearshore Division Tournaments are to be held within Nearshore waters out to the state boundaries unless modified by the tournament director. Examples of modifications include extending boundaries further offshore, extending boundaries to a designated contour line, or limiting boat launching to a specific county or counties. Scoring is only allowed for fish caught within the designated boundaries of the tournament. Boundaries will be documented on the tip sheet by the tournament director. All captains that enter a boat in a Nearshore Tournament must be a club member with their dues paid. Crew members are encouraged but are not required to be club members.
- (b) Nearshore Division tournaments may be held as a standalone tournament or in conjunction with Offshore Division tournaments, but each division requires a designated tournament director as well as a three-boat minimum participation to be counted as an official club tournament. Boats may not fish a tournament in both Nearshore and Offshore Divisions concurrently. Prior to the end of the captain's meeting, the captain of each boat must declare which division they will participate in for the tournament.

Article III. Scoring

- (a) Nearshore Division tournament scoring will be per the Nearshore Division Points Matrix
- (b) Nearshore Division tournaments shall be “catch and release” format, with harvest of legal fish allowed. The length of fish shall be determined by total length with the tail squeezed and the nose flush with the measuring device, unless the fish is regulated by fork length, in which case fork length will be used.
- (c) Only species listed on the Nearshore Division Tournament Points Matrix will be counted in the team’s score.
- (d) The harvest season for the fish to be judged does not need to be open.
- (e) Fish must be either a minimum length of 12” or the minimum legal harvest length if the season were open, whichever is less. Any exceptions will be noted on the Nearshore Division Points Matrix.
- (f) The Nearshore Division Points Matrix (*Matrix*) will be the most current matrix available on the ASWSC Website
- (g) The Matrix shall not be modified unless approved by the Tournament Committee and Executive Committee
- (h) Points from a maximum of 4 fish per category per team will be counted at each weigh-in. Only one photograph per fish may be submitted.
- (i) It is up to the captain and crew of each vessel to be available to assist the tournament director as needed to identify each picture with species, length, if requested.
- (j) Only 4 pictures per species are allowed during a scoring period.
- (k) If a picture has been submitted for scoring, it cannot be replaced (for a higher scoring fish) during the same scoring period. Back-up pictures are advised but may not be turned in with the other pictures unless requested by the tournament director.
- (l) All submitted photos will be reviewed and scored by the tournament director and/or the designated tournament staff.
- (m) Tie Breaker
 - (i) *In the event there is a tie, the highest individual daily boat score shall be used as a tie breaker.*
 - (ii) *In the event there is still a tie, the winner of the tie will be the tying boat with the longest fish measured during the tournament.*

Article IV. Measurement Process

(a) Measuring Devices

(i) No homemade measuring devices will be allowed. Devices must meet the below requirements:

- 1) The measuring device must have clearly visible minimum increments of ¼ inch and a vertical stop for the nose of the fish.*
- 2) The measuring device must be brought to the captain's meeting and must be approved by the tournament director.*
- 3) Fish caught that are longer than the measuring device will be counted at the longest measurement on the device.*

(b) Unique Team Identifier

(i) For each day of competitive fishing, the tournament director will issue a unique identifier to each team. This identifier should be unique. Identifier examples include a number or combination of letters and numbers.

(ii) The initial identifier will be provided at the Captain's Meeting with instructions from the tournament director and instructions on obtaining additional identifiers for subsequent days.

(iii) Each team must display the unique identifier in the submitted picture with their fish to be judged.

(c) Photograph and Submission requirements

(i) Device - Any device capable of picture quality of 1 megapixel or better may be used.

(ii) Participants must be able to transfer the pictures electronically via text message or by club approved photo capture mobile device application.

(iii) All entries must be submitted to the tournament director on or prior to the designated virtual weigh-in ending time.

(iv) The tournament director will announce the photo transfer method via the tip sheet for the tournament.

(v) Each photo submitted must be clear and include the entire fish from nose to tail. The photo must show the measurement device with the mouth of fish at the vertical stop, the tail above the measurement markings, and the unique team identifier.

(vi) If, per the matrix, the photograph of the fish is allowed to be taken with the fish in the water, the unique team identifier must be displayed above the fish so that the identifier, and the fish are clearly visible in the photograph.

(vii) The participating team is responsible for picture quality

Article V. Club Records

- (a) If a fish is legally harvested and is weighed in and recorded by the tournament director or designee on an official club scale, it will be eligible for a club record.*

Article VI. Tournament Fishing Times

- (a) Tournament fishing times will be announced during the Captain's Meeting. Unless specified otherwise, fishing for the first day of a tournament will commence after the Captain's Meeting and continue until the first virtual weigh-in time. Those fish will apply to Day 1 of the tournament. Fish caught after the virtual weigh-in time may be applied to the next day's if there is a virtual weigh-in the following calendar day.

Article VII. Recording of Scores

- (a) All captain's reports, also known as weigh-in sheets, must be completed by the tournament director, and submitted to the club secretary for official recording. Official weigh-in sheets which are posted on the club website will be used for this purpose.

Article VIII. Boat of the Year, Angler of the Year, and Club Records

- (a) There shall be a separate Offshore Division category and Nearshore Division category for Boat of the Year and Angler of the Year. Points earned by boats and anglers participating in a tournament under the Nearshore Division rules will apply solely to the Nearshore Division category of BOY & AOY awards. Points earned under the Offshore Division tournament rules will apply solely to the Offshore Division BOY & AOY awards.
- (b) Nearshore Division Boat of the Year
 - (i) *Nearshore Boat of the Year points shall be awarded separately but following the same algorithm as is used by the Offshore as below:*
 - 1) Scoring method will be 20/15/10/5/3 points for first through fifth place in tournaments
 - 2) In the event of a BOY tie, the same algorithm used by the Offshore Division to break ties will be used
- (c) Nearshore Division Angler of the Year
 - (i) *Competition is available to paid members in good standing. There will be three angler divisions: Juniors (16 and under as of Jan 1 of the tournament year), Ladies, and Men's.*
 - (ii) *The competition begins on the first ASWSC tournament of the year and ends on the last.*
 - (iii) *All species on the Nearshore Division Points Matrix will be recognized.*
 - (iv) *Total points awarded to an angler throughout the year will be tallied. The anglers with the highest total points in each of the three angler divisions will be awarded angler of the year.*
 - (v) *To be eligible for recognition in the Nearshore Division Angler of the Year awards program, any catches must be made during an official Nearshore Division club tournament and logged by the tournament director or designee on the official Nearshore Division weigh-in sheet for the tournament.*
 - (vi) *In the event of a tie for Angler of the Year, the angler with the longest fish wins the tiebreaker. If still tied, the next longest fish will break the tie until the tie is broken.*
